| 10 | Latto         | 16,139 |

An artist's plays are the sum over every charted song that credits them.

### [This week's Urban chart](#)

## How we counted

Each WARM chart ranks songs by the plays WARM detected that week on its own panel of radio stations: one panel for dance, one for urban. This report adds up the weekly charts WARM published between 19 June to 8 October 2026 (14 dance weeks, 15 urban weeks). A song's plays are summed over the weeks it was in that chart's Top 100. Plays on stations outside the panel, and in weeks the song was below the Top 100, are not included, so these totals are a floor.

A song is identified by its fingerprint ID and its ISRC, not by its title. When one recording carried two IDs (a radio edit listed twice, for example), we joined them: 245 such joins. A row whose title and artist both changed between weeks would have been left out; there were 0.

Figures as of 13 October 2026. Quote them with a link to this page and name WARM as the source.

## Questions

---

### What was the most played dance song on radio in 2026?

So far, Talk To You by ANOTR / 54 Ultra: 13,690 plays on WARM's dance panel in 14 weeks on the chart, 6 of them at number one.

---

### What was the most played urban song on radio in 2026?

So far, Raindance (feat. Tems) by Dave / Tems: 19,073 plays on WARM's urban panel in 15 weeks on the chart.

---

### Which artists had the most radio plays?

On the dance panel David Guetta (23,285 plays across all their charted songs); on the urban panel Drake (43,853).

---

### How are the plays counted?

WARM identifies songs on radio by audio fingerprint. A play counts when it was detected on a station in the chart's panel. Each song's plays are summed over the weeks it was in that chart's Top 100, so a song's plays in weeks outside the Top 100 are not included. Charts that were never published are not used.

---

### Can I use these numbers?

Yes. Quote them with a link to this page and name WARM as the source. For a song's full airplay, station by station, add it to WARM.

## See every play of your own song

Add a song and WARM shows each station, country and time it was played. Free trial: 5 songs for one month, no credit card.
